Product Change Notice - 3 point motorized controller

Dear Valued Customer:

As part of an effort to improve quality, upgrade “End of Life” hardware, enhance product performance, and unify controller compatibility, Lippert intends to obsolete leveling controller 427964. This controller will be replaced by controller 2020132409.

There is no change in operation or installation with the controller change and the new controller is backward compatible. The change will be made on or around 10/01/2021.

New Features:

- Excess Slope Limit changed from 3.5 degrees to 5 degrees.
- Inputs for Auto Level and Auto Retract.
 - Active low.
 - On 8-pin Aux connector.
 - ° Pin 5 – Auto Level.
 - ° Pin 6 – Auto Retract.
- Output for Dash Light.
 - Active High.
 - On when jacks are not fully retracted .
 - Off anytime time jacks are not fully retracted and/or during emergency retract.
- Output for Status Light.
 - Active High.
 - Flashes one time every two seconds during Auto Level and Auto Retract.
 - Flashes four times per second to indicate a fault is detected.
 - Otherwise off.

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Zachary Inbody
