Product Second Source Notice – In-Wall Slide-out aluminum gear rack material

Dear Valued Customer:

Please be advised in order to ensure an adequate product supply, we have secured an additional source for our extruded and machined In-Wall Slide-out System aluminum rack material.

This second source has been tested and approved by Lippert. The Lippert test data is available upon request.

This second source material is identical in fit and can be interchanged or mixed with original source material without any modifications.

There is only one visual way to differentiate this source's material. It will have a capital letter A stamped in each rack as seen in the photo.

The change will be made on a customer-by-customer basis. Customers will receive the current source and second source interchangeably as supply dictates.

**Second
source
has
stamped
letter A**

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Mason Ogle

VP of RV Sales
