

Subject Roof Rail Gap to Roof		Market USA
Service Category Vehicle Exterior	Section Exterior Panels/Trim	
Applicability 2022 Toyota Corolla Cross		

APPLICABLE VEHICLES

2022	Corolla Cross
------	---------------

CONDITION

Some 2022 Corolla Cross vehicles that are equipped with roof rails may exhibit a gapped fitting condition at the inner rear corners between the roof rail protector and the roof panel.

RECOMMENDATIONS

- Currently, there is no confirmed repair for this condition.
- Please do NOT attempt to repair this condition if it is identified.
- CQS strongly encourages the submission of field reports related to this condition to include:
 - Measurement data between roof rail protector and roof panel
 - Ambient air temperature at time condition was identified
