TOL NOTICE (US&CA) – August 3, 2021

TOL Ref. # 19124-SVC

SPEED TRIPLE 1200 RS OIL AND OIL FILTER REPLACEMENT PROCESS

The following change has been made to the oil refill and oil filter replacement process for the Speed Triple 1200 RS.

For the Speed Triple 1200 RS it is necessary to fit the replacement new oil filter AFTER filling the engine with new engine oil. Do not pre-fill the new filter with oil before fitting to the engine.

Fitting the (dry) oil filter after refilling the engine with oil will prevent the possibility of the low oil pressure warning light illuminating. This revised process aligns with that of the Speed Triple S and RS (see July 2018 Technical News 192 item 9 for details).

Please ensure all service personnel are made aware of this change to process for the Speed Triple 1200 RS.

Thank you and if you have any additional questions, please contact Triumph Customer Support at (888) 284-6288.
