File	Description
HFA ohne Funktion.mp4	HFA nonfunctional. LED in the key flashes multiple times.

Cause

1. Permanent interference in the low-frequency range through radio transmission points in the immediate surroundings.
2. Vehicle is charging at a charging station

Remedy

It is not necessary to replace any parts and doing so will not remedy the situation!

Perform SCN coding in electronic ignition lock (EZS) control unit N73/3.

Symptoms
Overall vehicle > Safety and locking system > Keyless go > Function > Vehicle does not open
