

**** Tech Tip ** - TT - 008 - 2016 - D16D, D16H, D16J
& MP10 Accessory Belt Tensioner
Improvement**

> Internal Content

The table below will help you identify which accessory tensioner will work with the appropriate alternator.

Small body alternators will accept the D13 / MP8 accessory tensioner, here are the part numbers for this type alternators:	Large body alternators for D16 / MP10 have interference between the alternator fan and the belt tensioner, these cannot use the 13L accessory tensioner, here are the part numbers for this type alternator:
21175411	20861706
21175413	20990003
21175415	21069683
	21070188
	21248989
	22713543

Example of the small body alternator
