Special Tools & Equipment

STN7370-10 Adapter for Torque Wrench

Technical Support

2131

USA Only

Porsche Special Tools & Equipment has recognized that there are two tools that are to be used for R&I of the Camshaft Adjuster for the Panamera (971) from MY 2017, that cannot be connected together because the connections are different sizes and do not fit. To connect the VAG 1331(A) to the VAS 261 001, the dealer will need the STN7370/10 to make the connection. Porsche Special Tools & Equipment will release the STN7370/10 as an auto-ship starting CW 45/21, Monday, November 8, 2021. If you have any questions about this adapter, please feel free to contact Porsche Special Tools & Equipment at askthetoolguy@porsche.us
