

STAR ONLINE PUBLICATION

Case Number: S2108000263

Release Date: November 2021

Symptom/Vehicle Issue: Map Lamps, Vanity Lamps, Rear Dome Lamps Inoperative

Customer Complaint/Technician Observation: Owner complains that the above listed lamps do not turn on. Technician observed BCM module setting DTC, B161E-11-Reading Lamp Control Circuit as stored or active.

Repair Procedure: Inspect the M27 circuit at the passenger side vanity mirror mounting location for any signs of pinched or pierced harness. Repair the harness per the harness service repair guidelines, no parts required. If no obvious harness issues located, use the below circuit wiring as reference to isolate the harness further. Test the operation to validate the repair.

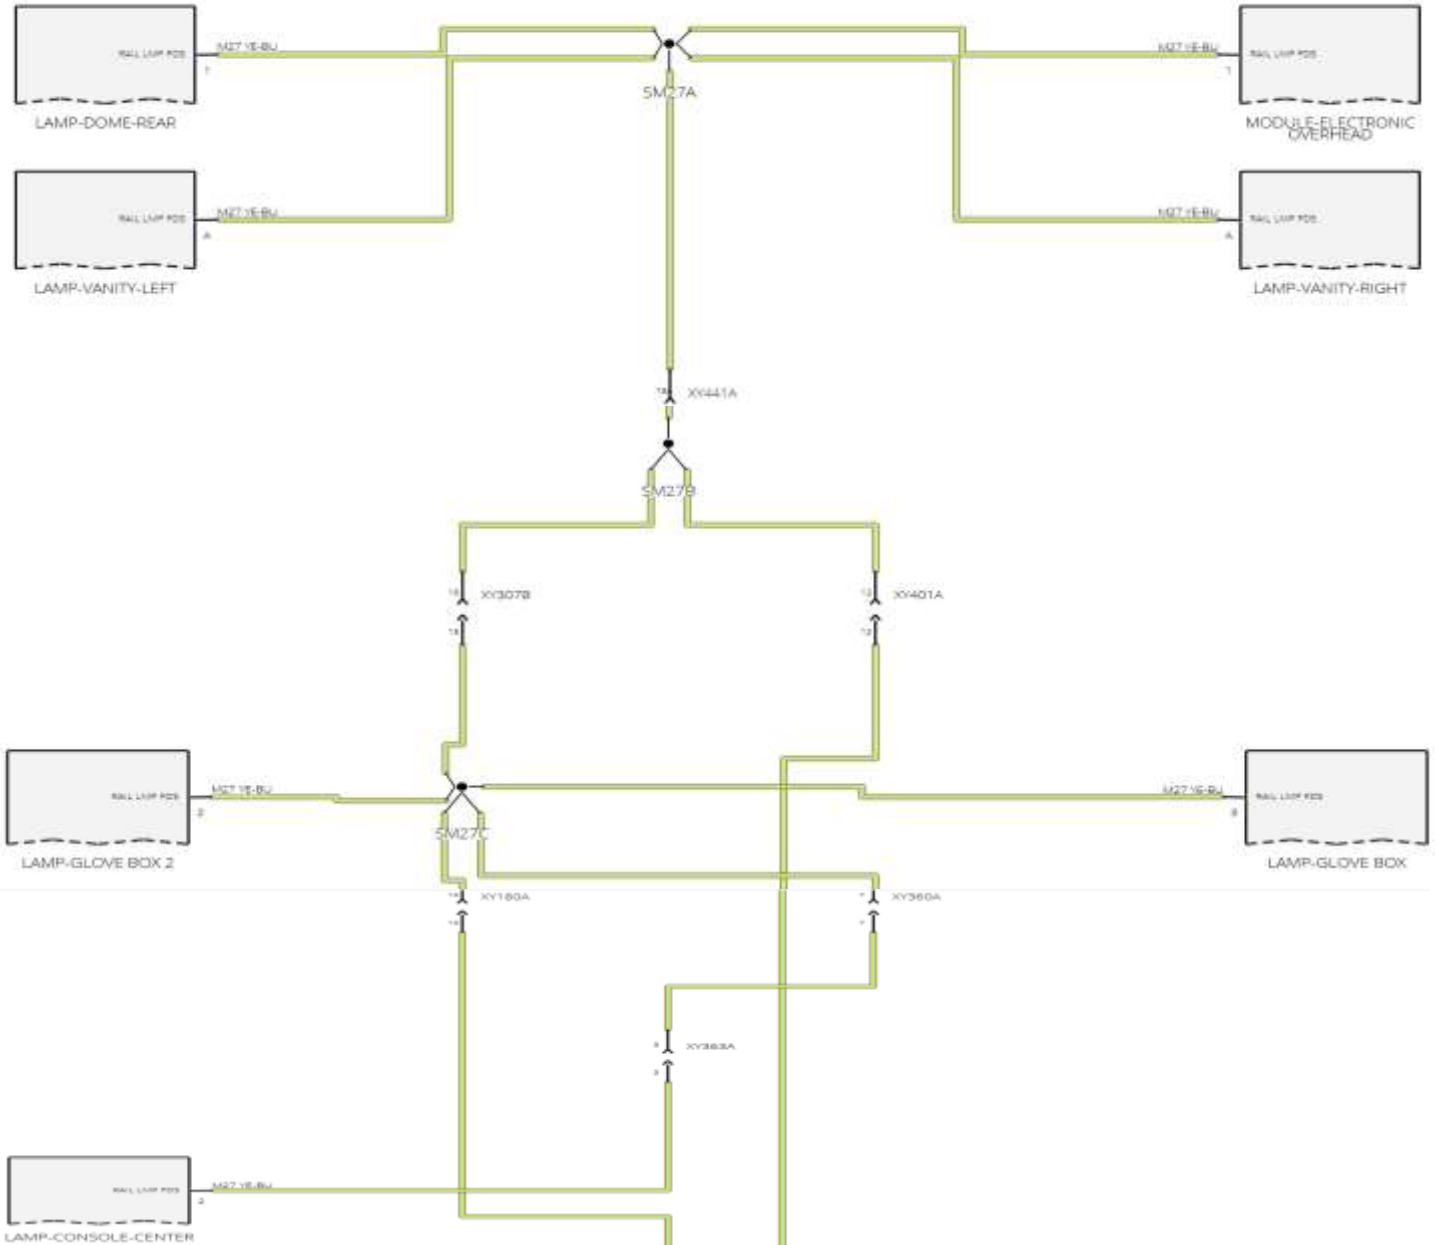

This document does not authorize warranty repairs. This communication documents a record of past experiences. STAR Online does not provide any conclusions about what is wrong with the vehicle. Rather, it captures all previous cases known that appear to be similar or related to the vehicle symptom / condition. You are the expert, and you are responsible for deciding on the appropriate course of action.

Contact STAR Center, or your Technical Assistance Center Via TechCONNECT or eCONTACT ticket if no solution is found
