

2021 Lexor

HOW TO REMOVE AND REPLACE LAMINATE ON KITCHEN COUNTER 2021 LEXOR

1. Pull out bottom drawer under microwave.
2. Once microwave removed and bottom drawer pulled out you can now work on the laminate.
3. Using a heat gun and a prying tool, heat the area so the glue will soften so you can remove completely the old laminate.
4. Once you remove completely the old laminate, using STA'-PUT contact adhesive install the new laminate.
5. Then using a laminate trimmer, trim the edges and file.
