Awning does not extend ...shows error on screen check pitch on awning after repairs causing issue have been made
1.0 needed to replace the awning motor. checked the wiring going to the motor and it has 12 volts going to the motor when pushing the button. put 12 volts to the motor and nothing happens. will need to pull the cover off and pull the motor out and replace.

Please contact Carefree of Colorado for warranty part and labor. The awning warranty will come from them directly on this.
