

Fault code U045A00 "Implausible data were received from control unit 'Parking system'." stored in electric power steering control unit

Topic number	LI46.35-P-071804
Version	2
Function group	46.35 - Electrical steering
Date	10/15/21
Validity	Model 213 with SA code 801 model 238 with SA code 801
Reason for change	Note added: Cause and remedy revised

Complaint

Fault code U045A00 "Implausible data were received from control unit 'Parking system'." stored in electric power steering control unit (N68).

Cause

1. This fault code is due to a parking system control unit (N62) service that is no longer required.
2. Parking control unit or other control units that communicate with the parking control unit (see stored fault code in parking control unit or in other control units that communicate with the parking control unit).

Remedy

1. Install new software for parking system control unit (N62).

The installed software item numbers vary depending on which variant is installed. However XENTRY automatically identifies the software.

- SubEntry version: A000 902 79 75
 - Entry version: A000 902 80 75
 - High version: A000 902 81 75
2. Process fault codes in parking control unit or in the control units that communicate with the parking control unit.
