

A labor strike at Hankook Korea has disrupted the tire supply chain resulting in shortages that immediately impact our production. As a result, **orders in our backlog configured with Hankook tires will be changed to Michelin tire options.** See the below table for details on corresponding changes that will be processed internally at TBB. **These changes are required on units with start dates of 2/28/2022 and earlier** but we will be making the changes on all affected orders through 5/1/2022 body start dates. Additionally, Hankook tire options will be temporarily discontinued.

For **orders that start after 2/28/2022**, you can revise changes to the tire selections using other available choices but those **requests will be subject to approval based on material lead times and tire availability.**

BF Goodrich tire selections will be also be reinstated but available only for body start dates later than 2/28/2022.
