

New Seats for M2 108SD and 114SD - FTL209

Communication Type: Product News

Date: 12/6/2021

Effective: Chassis Starts on April 4, 2022

This message is a follow-up to FAB287 published in June 2021.

As previously announced, Isringhausen (ISRI) seats are replacing National seats in the M2, 108SD, and 114SD due to a supplier discontinuation. The change began in July 2021 with vehicles produced in Santiago; the transition will be completed for all M2, 108SD, and 114SD models at all production locations with chassis starts as indicated above.

Please avail the attachment for a detailed data code crossover. See FAB287 for Features, Advantages, and Benefits associated with the new seat offerings as well as seat cover availability (also attached).

Truck Change Orders will be issued. In cases of unfavorable price impact, Truck Sales Orders will be price protected to the original seat options ordered.

New Seats Changeover M2, 108SD, 114SD

WORK SMARTSM

What is it?

- New Isringhausen (ISRI) seats released replacing National seats due to supplier discontinuation.
- New Seats Inc. bench seats planned to release Feb. 2022, replacing National bench seats due to supplier discontinuation.
- New seat covers are available in gray vinyl (std), black cordura or mordura cloths, and black Laredo leather. Grey cordura and mordura cloths will not be available in new seats.
- **Backlog updates and multiple changeover dates planned as ISRI and Seats Inc. capacity increases and National production ends (see matrix).**

Why is it important?

New ISRI seats have an updated ergonomic design based on new seat standards similar to Cascadia seats released in 2012 and provide improved design, comfort, and greater adjustability. Customer feedback on Cascadia ISRI seats has been overwhelmingly positive.
