## Applicability

| YEAR(S)     | MODEL(S)                      | ADDITIONAL INFORMATION |
|-------------|-------------------------------|------------------------|
| 2019 - 2020 | Avalon, Avalon HV, Corolla    |                        |
| 2019        | C-HR, Corolla Hatchback, RAV4 |                        |
| 2018 - 2019 | Camry, Camry HV               |                        |
| 2020        | Corolla                       |                        |
| 2018 - 2020 | Mirai, Sienna                 |                        |

### REVISION NOTICE

**December 21, 2021 Rev2:**

- The Required Tools & Equipment section has been updated.

**May 13, 2021 Rev1:**

- Applicability has been updated to include 2018 model year Sienna vehicles.
- The Required Tools & Equipment section has been updated.

Any previous printed versions of this bulletin should be discarded.

### SUPERSESION NOTICE

The information contained in this bulletin supersedes Service Bulletin No. T-SB-0047-19.

- The Required Tools & Equipment, Dynamic Navigation Update, and Embedded Navigation Update sections have been updated.

Service Bulletin No. T-SB-0047-19 is obsolete and any printed versions should be discarded.

## Premium Audio Navigation Map Update Process

---

### Introduction

Some 2018 – 2020 model year Toyota vehicles equipped with a Premium Audio with Dynamic Navigation System require a Special Service Tool (SST) USB flash drive to update the map, points of interest, and system software. The SST is used with applicable vehicles to deliver the update; however, the process for generating license keys differs from previous generations.

Before attempting to perform a map update, the head unit's expiration date must be checked. If the expiration date is still valid, a license key may be generated without the use of an activation card number. Updating the maps without the use of an activation card number is considered an Embedded Navigation Update (refer to pg. 10) and performing this process does not extend the duration of telematic map services. If the head unit's expiration date is expired, or is expiring within the next 90 days, it should be recommended to the customer to purchase an activation number. Utilizing an activation number will initiate a Dynamic Navigation Update (refer to pg. 4). This Dynamic Navigation Update will perform the Embedded Navigation Update and provide telematic map services for a period of two years from the day that the Dynamic Navigation Update is performed.

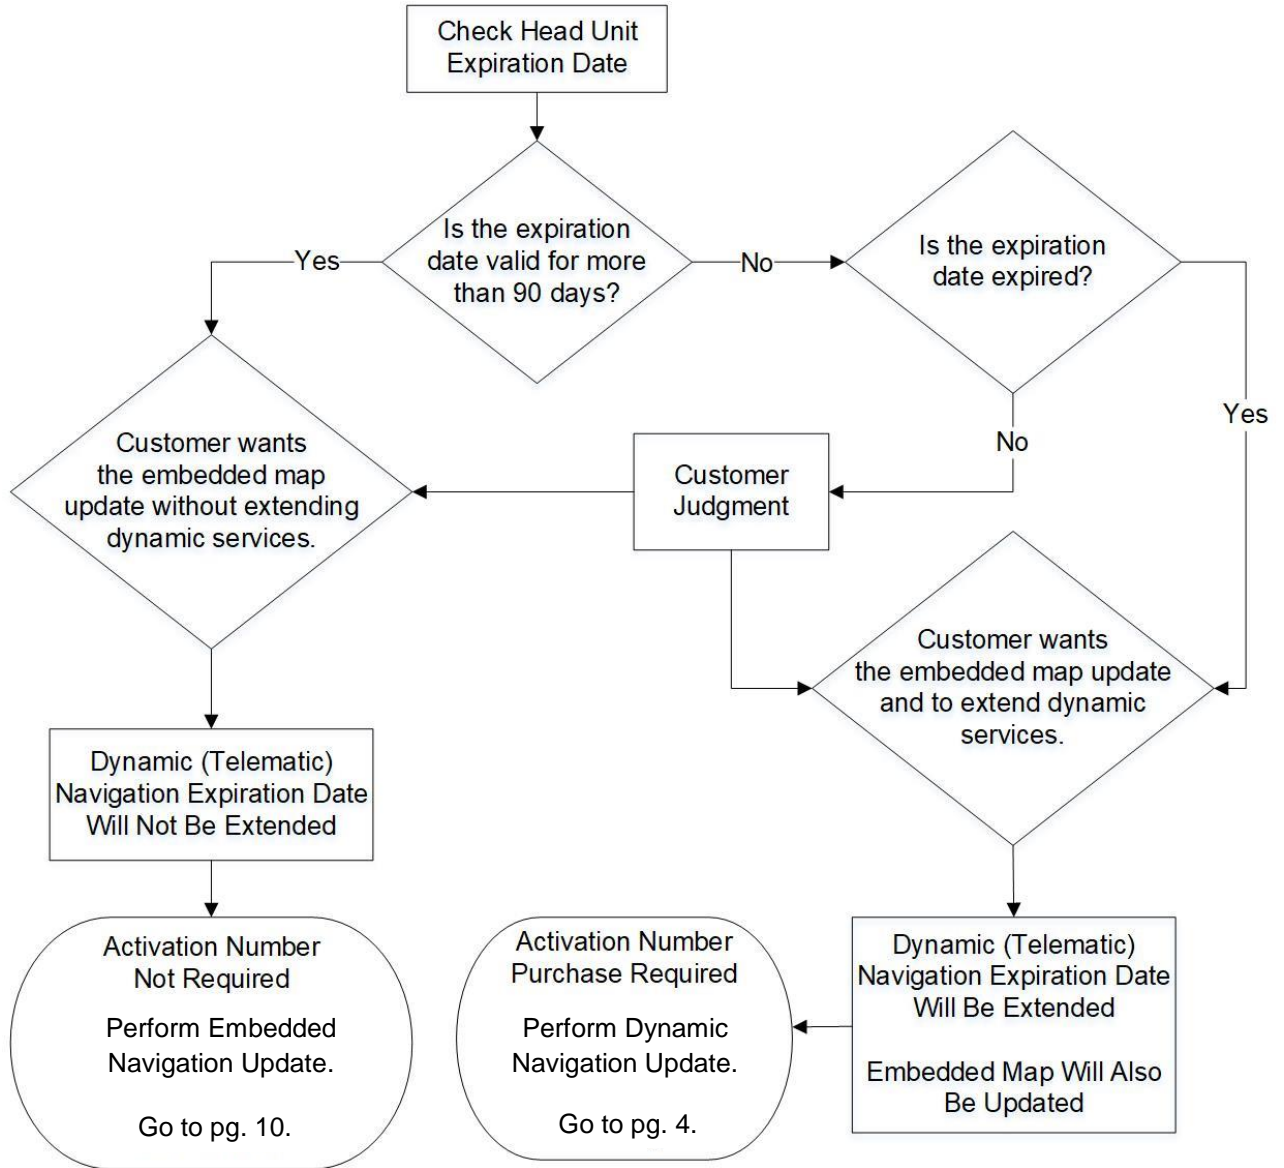

Activation card numbers are provided in an activation card number pamphlet available through the normal parts ordering system. Follow the process in this bulletin to perform the update.

#### NOTE

Map data is released once each year through the shipment of an SST USB flash drive to each dealer. The SST MUST be stored in the SST cabinet to ensure it can be easily found.

\*Essential SST.

**NOTE**

Additional SSTs may be ordered by calling 1-800-933-8335.

### Dynamic Navigation Update

1. Search TIS for ANY available firmware updates for the selected model and model year. Complete the firmware update(s) BEFORE installing the map data.
2. Cycle the ignition ON (Engine/Hybrid/EV system OFF).

**NOTE**

- Vehicles WITHOUT Smart Key system:  
Turn the ignition key to the ON position.
- Vehicles WITH Smart Key system:  
Press the Engine Start/Stop switch two times with the brake pedal released.

3. Select the Map button on the navigation head unit.

**Figure 1.**

## Premium Audio Navigation Map Update Process

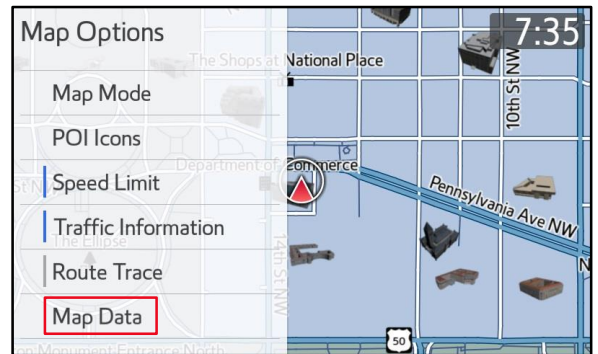

### Dynamic Navigation Update (continued)

4. Select the Map Options icon on the navigation screen.
  
5. Select Map Data on the Map Options menu.
  
6. Record the old map date (YYYYMMDD) and expiration date from the navigation screen.
  
7. Select Legal Info.

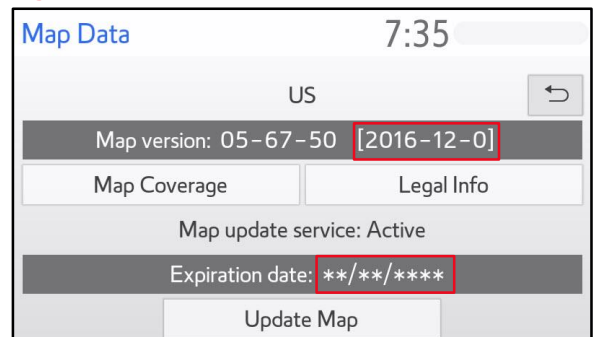

**Figure 2.**

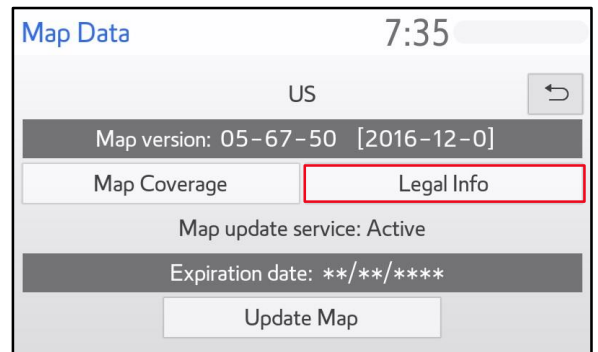

**Figure 3.**

**Figure 4.**

**Figure 5.**

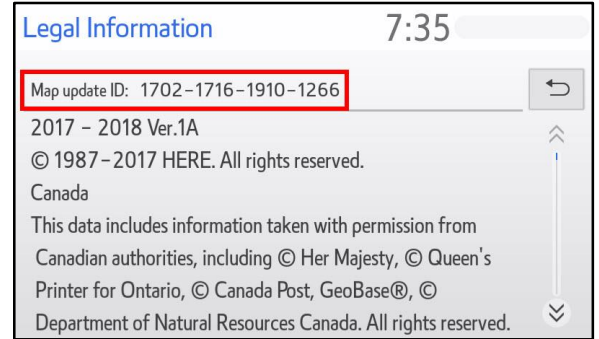

## Premium Audio Navigation Map Update Process

### Dynamic Navigation Update (continued)

8. Record the map update ID.

**Figure 6.**

- 9. Login to TIS.
- 10. Log into the Navigation Update Wizard.
  - A. Select the TIS tab.
  - B. Select the Diagnostics tab.
  - C. Select the Navigation tab.
  - D. Re-enter your password.
  - E. Select Login.

**Figure 7.**

- 11. Select AWTEC from the Select Navigation Manufacturer dropdown menu.
- 12. Enter the vehicle's VIN and head unit expiration date.

**Figure 8.**

**NOTE**

It is recommended to perform a Dynamic Navigation Update under the following conditions:

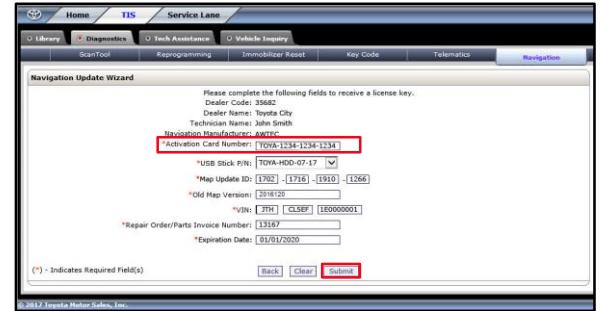

- The expiration date is expired.
- The expiration date will expire in 90 days or less.
- The customer would like to continue the dynamic navigation system for a period of two years from the date of the update.

## Premium Audio Navigation Map Update Process

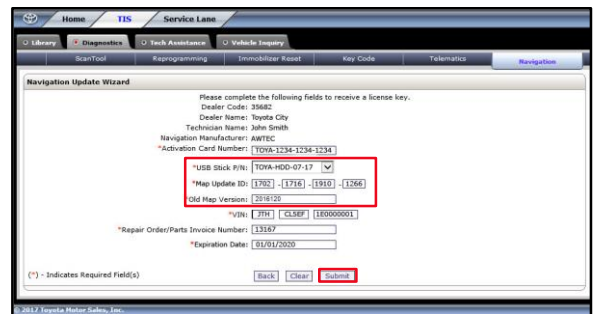

### Dynamic Navigation Update (continued)

13. Enter the activation card number from the inside of the pamphlet (obtained from the parts department).
14. Select Submit.
  
15. Enter the navigation data into the Navigation Update Wizard form.
  - A. Select the correct USB part number (found on the SST packaging, starts with "TLAW").
  - B. Input the map update ID into TIS (without hyphens).
  - C. Input the old map date into TIS using the following format: YYYYMMDD (without hyphens).
  - D. Enter the VIN.
  - E. Enter the repair order number.
  - F. Enter the expiration date.
  - G. Select Submit.
16. Check off each item AFTER confirming that it is correct. If ANY of the information is incorrect, select the back button.
17. Select Confirm.

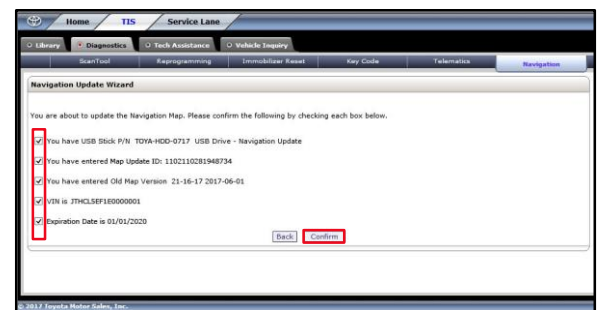

**Figure 9.**

## Premium Audio Navigation Map Update Process

### Dynamic Navigation Update (continued)

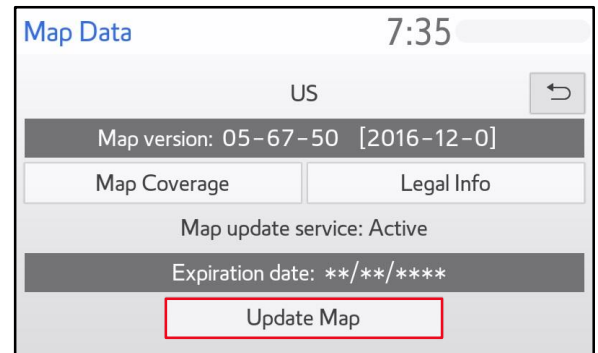

18. Note the license key that is generated. (It is recommended to print this page.)

**Figure 12.**

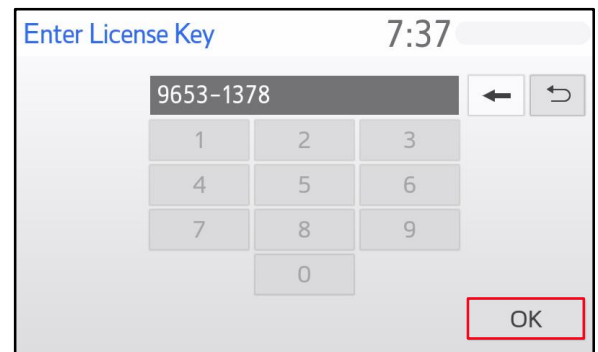

19. Insert the USB flash drive SST into the USB port of the vehicle (usually located under the navigation head unit, in the center console/armrest, or glove box).
20. Select Update Map on the Map Data screen.

**Figure 13.**

21. Select YES.
22. Enter the license key from step 18.
23. Select OK.

**Figure 14.**

## Premium Audio Navigation Map Update Process

### Dynamic Navigation Update (continued)

24. Update the navigation head unit software. If the head unit displays Figure 17, go to step 26 when prompted.

**NOTE**

Navigation map data will load when this process completes.

**Figure 15.**

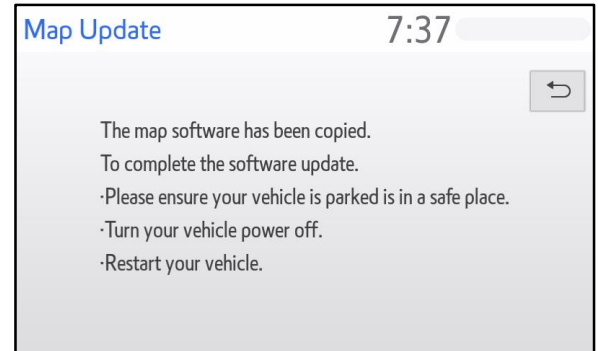

- A. Allow the update to complete.

**NOTE**

This process will take about 10 minutes.

**Figure 16.**

- B. The head unit will prompt to cycle the ignition. Cycle the ignition OFF, then ON (Ready OFF/Engine OFF) when prompted.

**NOTE**

Do NOT remove the USB flash drive during this process.

25. The Map Update screen will display and the navigation map update will begin automatically.

**NOTE**

This process will take about 45 minutes.

**Figure 17.**

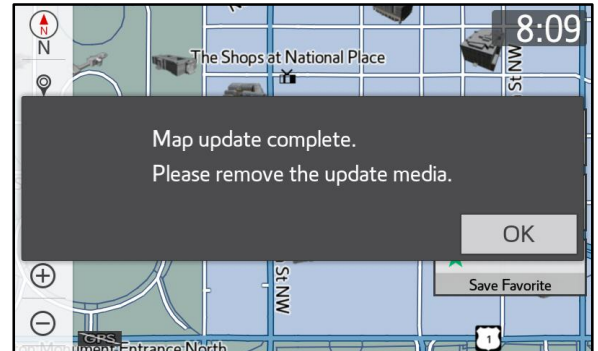

## Premium Audio Navigation Map Update Process

### Dynamic Navigation Update (continued)

26. When prompted, remove the USB flash drive from the vehicle's USB port.
27. The map update is complete.

**Figure 18.**

28. Verify navigation operation.

### Embedded Navigation Update

1. Search TIS for ANY firmware updates that are available for the selected model and model year. Complete the firmware update(s) BEFORE installing the map data.
2. Cycle the ignition ON (Engine/Hybrid/EV system OFF).

**NOTE**

- Vehicles WITHOUT Smart Key system:  
Turn the ignition key to the ON position.
- Vehicles WITH Smart Key system:  
Press the Engine Start/Stop switch two times with the brake pedal released.

3. Press the Map button on the navigation head unit.

**Figure 19.**
