

MULTI-MODEL

MAZDA RADAR CRUISE CONTROL (MRCC) IDENTIFICATION

Vehicles equipped with Mazda Radar Cruise Control (MRCC) can be easily identified by locating the front radar sensor on the front grille.

Radar Sensor Front
Equipped with MRCC
Mazda emblem has a transparent flat surface

Not equipped with MRCC
Mazda emblem has a shaped surface

Note:

- If the wrong emblem is installed on a vehicle equipped with MRCC, error message "MRCC Radar Blocked" will be displayed.
- The Radar Sensor Front is used for MRCC/DRSS/SBS/FOW/Collision Warning and Close Proximity Warning.
