# Service Bulletin

Service Bulletin - Technisches Rundschreiben - Circulaire Technique - Circular Tecnica

Date: **28 July 2021**

Subject: **Front mudguard mounting screws tightening**

Product: **F3 (all versions) – Superverloce Euro5 (all versions) – Brutale 800 (all versions) – Dragster 800 (all versions) – Turismo Veloce (all versions)**

**For identification of the VINs involved, please refer to the list attached at the end of this document.**

As part of the process of continuous improvement of the quality of our products, It is necessary to check the tightening of the fixing screws of the front mudguard, as it has been found that on some vehicles the fixing screws have an incorrect torque that could cause loosening and consequent malfunction or damage. It will then be necessary to modify the tightening torque by following the instructions below. We ask you to check and possibly update the bikes during the pre-delivery phase, during a maintenance service or at the first useful opportunity at your workshop.

## **REQUEST FOR WARRANTY REFUND FOR LABOR (PHASE 1):**

To obtain a refund for the labour, in addition to the complete motorcycle data, it is necessary to send a Warranty claim using the following information:

- Warranty type = 2 options available:  
New motorcycles in stock NOT REGISTERED = **GP**  
Motorcycles sold with activated warranty = **GC**
- Operation code: **R132** with labour time of **0.1 hours**
- Problem code: **061**
- Problem date: **date of insertion of warranty claim**
- It is also mandatory to include the reference "**CT 277**" in the warranty claim's notes.

## **WARRANTY REQUEST (PHASE 2):**

After the validation of the warranty claim by the MV Agusta Technical Assistance Service, it will be necessary to complete the Warranty claim procedure by entering the repair date: the insertion of the repair date in the warranty claim is valid as certification of the successful upgrade of the motorcycle performed by the dealer and allows the payment of labour for the work performed.

**NOTE: we remind you that according to the new warranty management functions and procedures, the insertion of the repair date is fundamental and mandatory as per technical communication no. 004/17**

### Identification of the parts:

### Screw tightening procedure:

1. Locate the fixing screws of the front mudguard
2. Tighten all fixing screws to a torque of **10 Nm**.

Thanking you in advance for your collaboration, we remain at your disposal for any support.

Best regards  
**MV AGUSTA MOTOR S.p.A.**  
Technical Assistance Service
