

# URGENT: UPCOMING TSBs FOR SPECIFIED 2021 LA (CHALLENGER) & LD (CHARGER) 6.2L/6.4L

## Enhanced Security PCM Flash, "Enhanced Security Valet Mode"

Please be advised that TSBs for applicable **2021 LA/LD 6.2L/6.4L with SalesCode JAV (Performance Pages)** are being released this Thursday.

These are unique TSBs of which both Sales and Service must be aware.

The applicable TSB is a security software flash that will install an "Enhanced Security Valet Mode".

Activation of "Enhanced Security Valet Mode" will allow throttle application to idle speed with minimal driving power until a PIN code is inputted.

Key points:

1. Pertains only to 2021 LA/LD 6.2L/6.4L with SalesCode JAV (Performance Pages).
2. Dealers are NOT to install on Unsold units prior to Sale.
3. The applicable TSB is to be only installed if the customer approves of its installation.
4. There is no charge to the customer for the applicable TSB. Follow normal TSB claim processing.
5. Service technician must follow installation process properly to ensure no injuries/damages.

Ensure needed parties review the applicable TSBs for more details.

Thank you,

Mopar
