

**NUMBER:** 14-005-21

**GROUP:** 14 - Fuel System

**DATE:** July 17, 2021

*This bulletin is supplied as technical information only and is not an authorization for repair. No part of this publication may be reproduced, stored in a retrieval system, or transmitted, in any form or by any means, electronic, mechanical, photocopying, or otherwise, without written permission of FCA US LLC.*

**SUBJECT:**

Fuel Line Blockage

**OVERVIEW:**

This bulletin involves replacing the engine fuel/EVAP forward line bundle.

**MODELS:**

2021 (DT) RAM 1500 Pickup

**NOTE:** This bulletin applies to vehicles within the following markets/countries: North America.

**NOTE:** This bulletin applies to vehicles built on or after August 21, 2020 (MDH 0821XX) on or before October 02, 2020 (MDH 1002XX) equipped with a 5.7L V8 Hemi MDS VVT Engine (Sales Codes EZH and EZL).

**SYMPTOM/CONDITION:**

Customers may experience a Malfunction Indicator Lamp (MIL) illumination. Upon further investigation the technician may find the following Diagnostic Trouble Code (DTC) has been set:

- P0174 - Fuel System 2/1 Lean.

In addition, the customer may notice one or more of the following conditions:

- Reduced acceleration.
- Rough starting.

**PARTS REQUIRED:**

Qty.	Part No.	Description
1	57008587AA	Fuel Line Bundle

**DIAGNOSIS:**

Using a Scan Tool (wiTECH) with the appropriate Diagnostic Procedures available in DealerCONNECT/Service Library, verify all related systems are functioning as designed. If DTCs or symptom conditions, other than the ones listed above are present, record the issues on the repair order and repair as necessary before proceeding further with this bulletin.

If the customer describes the symptom/condition listed above or if the technician finds the DTC, perform the Repair Procedure.

**REPAIR PROCEDURE:**

1. Release the fuel system pressure. Refer to the detailed service procedures available in DealerCONNECT/Service Library under: Service Info> 14 - Fuel System / Fuel Delivery, Gas / Standard Procedure.
2. Remove the engine cover. Refer to the detailed service procedures available in DealerCONNECT/Service Library under: Service Info> 09 - Engine, 5.7L / Cover, Engine / Removal.
3. Disconnect the engine side fuel supply line.
4. Remove the three fuel bundle push pin fasteners from the fuel line bundle brackets (Fig. 1) .
