WHAT YOU NEED TO KNOW

- **CONDITION** There is a possibility that moisture in the air may cause a filter in the vehicle emissions system to degrade. This degradation could cause damage to other parts of the vehicle emission system and illuminate the check engine light (Malfunction Indicator Light).
- **REMEDY** Any authorized Toyota dealer will inspect the vehicle. Based on this inspection, the dealer will repair the air injection pump and install an improved filter or replace the air injection pump with one that contains an improved filter, as needed, **FREE OF CHARGE**. The dealer will also replace the air switching valves in the vehicle emissions system **FREE OF CHARGE**.
- **DURATION** The FREE repair on your 2012 TACOMA will take approximately one hour depending on your dealer's schedule.

Es posible que el sistema de emisiones de tu Tacoma, con número de VIN que termina en CM089589, necesite una reparación. La humedad en el aire puede degradar un filtro en el sistema de emisiones del vehículo, lo que a su vez podría dañar otras partes del sistema de emisiones y hacer que la luz de revisión del motor se encienda.

Llama al (541) 382-4040 para programar tu reparación GRATUITA.
