

Reminder: Your Car-Net Services are Ending

Option to Keep Connected Vehicle Services

<First and Last Name>
<Street Address>
<City, State and Zip Code>

Beginning February 22, 2022, AT&T, the wireless network provider for VW Car-Net, will discontinue their 3G wireless network. This means that the VW Car-Net telematics system on your <modelyear, model> will no longer function and your vehicle will no longer transmit or receive telematics data through the Car-Net system. If you have an active Car-Net subscription, it will not extend past January 31, 2022.

Option to Keep Connected Vehicle Services

Volkswagen has identified Motion by Mojo as an optional solution with an easy-to-install 4G LTE device and an 18-month service subscription – a \$295 value, **free of charge***. With this aftermarket plug-in device, you can enjoy several similar Car-Net features including:

- Automatic Crash Notification – alerts your designated emergency contacts
- Driving Statistics, including Vehicle Timeline, Trip Tracking, History, and RoadScore
- Last Parked Location and Live Vehicle Tracking
- Nearby Fuel Locations with Real-Time Pricing
- Vehicle Health Reports and Maintenance Reminders
- Geofence, Disturbance, Speed, and Diagnostic Alerts
- Virtual Glovebox with Document Storage

Additional subscriptions and service fees may apply.

Please note: Motion by Mojo collects data from the vehicle's OBD port, not the vehicle's cellular internet connection. Therefore the services offered by Motion by Mojo **are not provided by Volkswagen** and differ from VW Car-Net connected services.

Offer Code: [xxxx]
Offer Expires: January 20, 2024
Offer good for one-time use.
