**Date:** January 31, 2022

**Issue:** Volkswagen has made updated software available to help improve the functionality of the infotainment system in selected vehicles.

U.S.A.:

- Dealers should update vehicles via USB.
- Customer owned vehicles will be eligible to receive this software update free of charge via Over-the-Air (OTA) without the need for a special dealership visit. Vehicles eligible for an OTA update will receive notification in the vehicle’s infotainment system when the OTA version of this update becomes available. Owners can then follow the on-screen prompts to proceed with software download and installation. This should be the primary method for repairing vehicles.

Canada:

- Update vehicles via USB.
- Over-the-Air (OTA) flashing in Canada is not yet available.

**Repair:**

- REPAIR AVAILABLE – February 01, 2022 / Software Update
- See ELSA/ServiceNet for complete repair & claiming instructions
- Check both the daily Campaign Open Inventory report and OMD for affected vehicles in inventory. Verify OPEN status in ELSA on the day of repair.
- Repair every affected inventory vehicle before delivery to consumers.

**Parts Department:**

No parts needed; software update only.
