| Date:               | January 10, 2022   |  |  |  |   |       |  |  |
| Issue:              | AT&T has announced its plan to discontinue its 3G network in the United States starting in February 2022. This will impact the Audi connect services in certain 2017-2019 model year Audi vehicles.  |  |  |  |   |       |  |  |
|                     | Under this service action, Audi is offering customers a software update. Eligible vehicles will also receive a hardware update at no expense to the vehicle owner.   |  |  |  |   |       |  |  |
|                     | • The software update will deactivate the vehicle's 3G service capability so that error messages do not continually appear once 3G is no longer available.   |  |  |  |   |       |  |  |
|                     | <ul> <li>The hardware update will be to install a 4G LTE connected car adapter. The<br/>hardware update addresses a majority of the telematics-based services<br/>impacted by the sunset of 3G wireless service through a new service, Motion for<br/>Audi connect.</li> </ul> |  |  |  |   |       |  |  |
| Repair:             | REPAIR AVAILABLE – January 11, 2022  |  |  |  |   |       |  |  |
|                     | See ELSA/ServiceNet for complete repair & claiming instructions  |  |  |  |   |       |  |  |
|                     | <ul> <li>Check daily campaign open inventory report or OMD for affected vehicles in inventory</li> <li>Repair every affected inventory vehicle <u>before delivery to consumers</u>.</li> </ul>   |  |  |  |   |       |  |  |
| Parts Department:   | See the 91CD campaign circular for complete details.   |  |  |  |   |       |  |  |
