Bulletin: SNV16-033
Date: September 12, 2016
Valid to: Until Further Notice
Replaces: N/A
Action Required? **Yes**

From: Greg Holderfield – Director, Product Reliability

Subject: US'14 (GHG) 13 Liter Two Piece Valve Cover (Corroded Screws)

An improved screw (Part # 22806270) has been released to prevent corrosion on the stem of the screw and threads. If corrosion has occurred, replacement of all screws is required. If you encounter a screw that has corroded or seized make sure the crush sleeve inserts in the lower cover remain secure during repairs. **Failure to confirm that all sleeves remain in lower cover could lead to engine damage.** The crush sleeves are not offered as a spare part at this time, however we are in the process of getting inserts released as a spare part.
