INTELLIGENT KEY UNIT SERVICE INFORMATION

**This bulletin has been amended. See AMENDMENT HISTORY on the last page.
Please discard previous versions of this bulletin.**

APPLIED VEHICLES: 2022 Pathfinder (R53)
2021-2022 Rogue (T33)
2020-2022 Sentra (B18)

SERVICE INFORMATION

- When replacing the Intelligent Key unit (hands free module), **ALWAYS** replace it with a new one.

- Module configuration **MUST BE** performed before NATS initialization (key registration). Once NATS initialization has been performed, portions of the configuration are locked and can no longer be changed.

- When replacing the Intelligent Key unit, it is critical to follow the work procedure as detailed in the ESM.

  o For Pathfinder and Rogue, navigate to **BODY EXTERIOR, DOORS, ROOF & VEHICLE SECURITY** > **DOOR & LOCK** > **BASIC INSPECTION** > **ADDITIONAL SERVICE WHEN REPLACING INTELLIGENT KEY UNIT**

  o For Sentra, navigate to **BODY EXTERIOR, DOORS, ROOF & VEHICLE SECURITY** > **DOOR & LOCK** > **BASIC INSPECTION** > **INTELLIGENT KEY UNIT** > **ADDITIONAL SERVICE WHEN REPLACING INTELLIGENT KEY UNIT**

NOTICE

To prevent damage to the Intelligent Key unit, perform module configuration **BEFORE** NATS initialization.
