

## **SSM 50490 - 2021-2022 Bronco - Hard Top Roof (MIC) Quality Tracking Initiative**

2021-2022 Bronco vehicles built on/after 12-Aug-2021 equipped with hard top roof or vehicles repaired under Customer Satisfaction Program 21B49. Submit photos of hard top roof concerns that require part replacement for any reason using web-based PTS or Mobile PTS Report a Vehicle Concern function. For payment, use labor operation SUBPHOTO for reimbursement. The hard top roof is enhanced to meet standards expected by customers. To ensure long-term supplier quality is maintained, Ford is seeking immediate dealer feedback on customer concerns.
