General Information

Radios DEA512 AM/FM/WB/USB/SXM (A22-77385-000) and RAD-6030J AM/FM/WB/MP3/USB/500 (A22-76945-000) are no longer available. The supplier is still producing replacement parts, but CD functionality is no longer available. An antenna adaptor is also required for the new radios.

Replacement Parts and Adaptors

Controller Area Network (CAN) Connected Radios

For New Cascadia vehicles with CAN connected radios, see [Table 1](#) for replacements. The replacement radio in this table is capable of obtaining clock settings from the ICU via the CAN network. It does not require a 30-day capacitor to maintain clock settings.
