T90024 to T90024B Supersession-Swapout

Technical Support

2201

USA Only

VW AG has found the need to supersede the T90024 to the T90024B, because of some mechanical differences when applying the pressure while installing the new seal on the Taycan battery case during resetting the BMCe. To accommodate each dealer with a swapout of the T90024 (please refer to SPTL 1933), T90024B (please refer to SPTL1933.1) will be auto-shipped. Snap-on Business Solutions will ship the new T90024B to the dealers (charging the dealer initially). We ask that you follow the instructions to use the supplied label in the box and the paperwork that comes with the new T90024B to send it back to SBS. Once the old item is received by SBS, the dealer will be credited the T90024B charged amount. If you have any questions about this swapout, please feel free to reach out to Porsche Special Tools & Equipment at askthetoolguy@porsche.us

T90024 Original Tool

Important – Please Read T90024 Recall

Dear Tool and Equipment Customer,

Enclosed please find the T90024B essential tool.

Also included in this shipment are a return order (BTR) and a return label for the T90024 or T90024A currently in your shops possession.

Your shop has been invoiced for the new T90024B however; you will receive credit for your previous version of the T90024 upon return.

Please locate and return your existing tool by reusing the shipment packaging. Be sure to include the BTR inside the box and use the pre-printed label provided, to return the old tool.
