

Model Series 206: Noise In Front Seat Between Seat-Back Lining And Seat Cover

Topic number	LI91.10-P-074586
Version	1
Function group	91.10 - Front seats
Date	3/24/22
Validity	BR206
Reason for change	

Complaint

Noise from the front seats between seat-back lining and seat cover

Cause

Possible abrasion on seat cover

Remedy

Do NOT lubricate affected point or modify the original part in any way.

Please create a PTSS case and replace seat-back lining and seat cover. Please do not dispose of the covers as they will be called in for analysis.
