The affected vehicles have been marked with campaign number **0071180000** in AIR.

In order to determine if a specific vehicle is affected by this campaign it will be necessary to verify the vehicle VIN in AIR (Aftersales Information Research). Based on the response of the system, either proceed with the repair or take no further action. Please note, open campaigns or vehicle stops may not appear in DCS Warranty Vehicle Inquiry or sales systems until 24-72 hours after they are announced, therefore AIR is always the recommended method for determining open campaigns and vehicle stops.

SITUATION

Label "Emission Control Information" contains incorrect information regarding oxygen sensors installed in the vehicle.

PROCEDURE

Label "Emission Control Information" with the erroneous information must be removed and replaced by the corrected version.

This work must be done prior to the delivery of the motorcycle.
