Supplier

Dana

Description

Recall 22KWB Dana Front Axle Steer Arm Fasteners

Date

5/10/2022

What's New

Safety Recall – Interim Notification - The Dana D-Series front axle steer arm fasteners that attach the steer arm to the steering knuckle may fail, increasing the risk of a crash or injury. Repair information will be added when a repair procedure and parts are available.

Introduction

Kenworth Truck Company has determined that a defect, which relates to motor vehicle safety, exists in certain model T170, T270, T370, T440, T470, T680, T800, T880, W900 and W990 chassis model year 2018 through 2021 vehicles built from 08/01/2017 through 05/31/2019 with a Dana D-Series front axle. The steer arm fasteners that attach the steer arm to the steering knuckle may fail, resulting in a loss of steering control and increasing the risk of a crash or injury. These rare cases are understood to have occurred during low-speed maneuvering when steering forces are highest.

Resolution

Safety Recall

This bulletin will be updated when the repair procedure and parts are available.

Federal Law

It is a violation of Federal law for a dealer to sell or lease new vehicles covered by this recall until the defect or noncompliance has been corrected.
