

Special Tools Bulletin

TITLE:

Deutronic DBL1200-14 90-amp Maintainer/Charger - Part No 9815256
Deutronic Transport system (cart) - Part No 98152157

NO: 257	ISSUE DATE: 2022-05-12	CAR MARKET: United States and Canada	Page 1 of 4
	STATUS DATE: 2022-05-12		

“Right first time in Time”

Volvo has introduced a new battery maintainer into the Special Tools program that will better support VIDA software downloads. Statistically we see over 50% of the downloads being performed with too low a battery voltage. This is a major contributor to download failures, especially when using VIDA Wi-Fi.

Special Tools Bulletin 257

The Deutronic DBL-1200 is an advanced battery maintainer/charger with the flexibility to be updated as products and repair methods evolve. To ensure correct battery voltage during software downloads, and lessen the chances for SWDL failures, the DBL-1200 has been classified as a required Volvo Special Tool, for all retailers. As such, this DBL 1200 is factory set to Volvo's specifications.

This DBL 1200 and the transport system (cart) will be automatically allocated through normal Volvo Cars Special Tool routines and delivered in a staged roll out beginning Q2 of 2022.

Like all other special tools, it will be invoiced on your retailer parts statement.

Volvo-No. 9815256 DBL1200-14

- 5 m charging cable
- 5 m main cable international (set of 4)

Volvo-No. 9815257 Transport system - For one battery charger

The DBL 1200 is covered for 2 years for manufacturer defects.

The USA Deutronic warranty and repair center is Supplier Resource, Inc. (SRI) and it is in Spartanburg, SC.

The procedure for repairs including warranty repairs, requires the unit to be returned to the Spartanburg location. No cables or cords are necessary. Deutronic will repair the unit and send an invoice for the repair (no invoice for warranty repairs). Once the invoice is paid, the charger will ship the unit back to the dealer.

Please use the repair sheet.
