

Subject		Market
Head Unit Software Update (Panasonic) - Phased Release		USA
Service Category	Section	
Audio/Visual/Telematics	Navigation/Multi Info Display	
Applicability		
All Applicable Models		

APPLICABLE VEHICLES

2022	NX250	2022	NX350H
2022	NX350	2022	NX450H+
2022	LX600		

CONDITION

Some 2022MY Lexus drivers may experience the inability to perform Service Bulletin Titled “Head Unit Software Update (Panasonic)” on their vehicle due to gradual roll out of this customer facing update. This phased roll out means that as time progresses, more vehicles will receive the update notification and ability to update the head unit. This timing will vary by location and may not display for every vehicle in one location at the same day/time.

RECOMMENDATIONS

This is a normal characteristic and no repairs are recommended.
