

GPOP - Issue Review System

Part Number: 04893805A\$

Part Description: Valve Cover Gasket

Issue Description: If you are experiencing a right valve cover leak and plan on replacing only the gasket, the customer may later return for an oil leak.

Engineering has updated the skirt height of the valve cover to address oil leaks. Replace the valve cover (part # 04893800AI includes valve cover gasket) to ensure proper repair.

Please call FCA Redacted Content if further questions or help is needed with parts retention returns on valve cover assemblies
