

As TBB continues to work through supply shortages that threaten delivery of vehicles, we will need to discontinue Bridgestone tires until further notice. All quotes in the system equipped with Bridgestone tires with a build date of 7/11/22 or later will require a change. All quotes requiring mud and snow tires will be changed to the Michelin tires. Quotes with 14 ply mud and snow tires will be updated to 16 ply due to a lack of 14 ply mud and snow offerings. All others units will be changed to Hankook tires. This will not impact the price of the bus. See the table below for further clarity.
