Title: Front Cab Mount Bushings/Insulators on MV, HV, DuraStar® WorkStar® Vehicles Used in Severe Vocations. (TSI-11-16-03)

Applies To: Model: MV, HV, DuraStar, WorkStar

CHANGE LOG

Please refer to the change log text box below for recent changes to this article:

06/17/2022 - Corrected and updated coding page. Added info for special tool to remove bushings.
11/17/2021 - Added MV, HV, DuraStar to Applies to, Added note to always replace bushings in sets.
04/19/2018 - Author updated for feedback purposes

DESCRIPTION

A heavy-duty cab front mounting bushing is available for severe service applications providing increased service life on certain model vehicles. Vehicles built with the trunnion-style cab mount bushing part number 3574678C1 or 3574679C1 can be serviced with the optional heavy-duty cab mount bushing part number 3574680C1. **Be sure to always replace bushings in sets.** (It is not recommended to just replace/change the rubber isolator on one side of the cab.) This will cause a mis-match in performance due the age and usage differences between an old and new bushing.

- WorkStar® model 7600 and 7700 vehicles built on or after 10/05/2009 for the Mexico/Export market
- WorkStar® model 7300, 7400, and 7500 vehicles built on or after 02/02/2009 for the Mexico/Export market
- All WorkStar® models built for waste applications, on or after 02/02/2009
- Certian MV®, HV®, DuraStar®, and Workstars® that are deamed as severe service due to customer application

TSI-11-16-03 Click [HERE](#)

Note: There is a special Tool available to remove and install the isolator bushings; In some cases this can be done without removing the front mount casting from the vehicle.

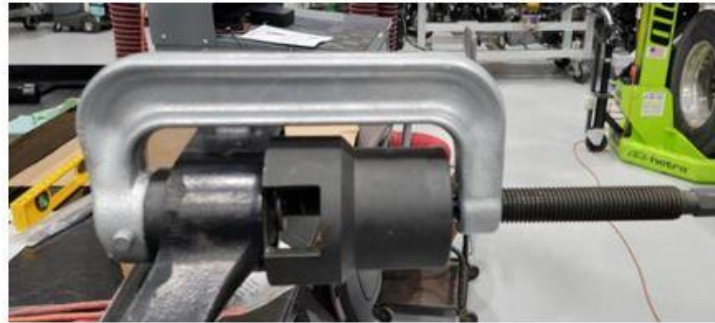

PRESS, CAB MOUNT BUSHING

Product Number: ZTSE4928

Description:

Used to remove and/or install cab-mounting bushings.

Navistar's Front Cab Mnt Bushing Press P/N: ZTSE4928
