

2022 MY F-150 Lightning  
(ECG)  
3.1.1

Ford Power-Up 3.1.0

Small changes here and there. Ongoing updates like this help you enjoy the best possible version of your F-150® Lightning™ truck. Enjoy.

2022 MY F-150 Lightning  
(SYNC)  
3.2.0

Ford Power-Up 3.2.0

We've been super busy. Check these out.

Advanced Dual Phone

Access two phones at the same time without having to mess with the settings. You could, for example, easily access both phones for incoming calls, contacts, text messages, emails and more.

Digital Owner's Manual

We made sure what you need to know is in there and easy to find. Go see it at [Ford.com/support](https://ford.com/support), in-vehicle or in the FordPass® App.

Games

Looking for something to do while charging up your F-150® Lightning™ truck? Now turn that downtime into playtime with a game of DoubleSum, where you can show your knack for numbers. Keep in mind that feature availability varies by model. For more information on these features, visit [Ford.com/support](https://ford.com/support) or your digital Owner's Manual.

Payload Limit Warning

We fine-tuned the Onboard Scales function so that you'll receive a notification if your payload capacity has been reached even if other feature menus are occupying the screen.

Ongoing updates like this help you enjoy the best possible version of your F-150® Lightning™ truck.

2022 MY F-150 Lightning  
(TCU)  
3.3.1

Ford Power-Up 3.3.1

Minor updates here and there.

Just small stuff to keep everything running smoothly. Ongoing updates like this help you enjoy the best possible version of your truck. Enjoy.

2022 MY F-150 Lightning  
(Powertrain + BCM)  
22C15 and 22S45

Ford Power-Up

We've been busy working to make your experience the best it can be.

Recalls 22C15 and 22S45

We updated software on your vehicle to fix a potential concern with the accuracy of your vehicle's Tire Pressure Monitoring System. This completes Safety Compliance Recall 22C15 (USA) or Safety Recall 22S45 (Canada).

Distance-to-Empty Improvement

We also updated the software on your truck to improve the accuracy of distance-to-empty measurement.

There is nothing you need to do.

Ford Power-Up software updates like this let us handle recalls without the inconvenience of asking you to leave home. At Ford, we value your safety and we respect your time.
