This document modifies the Volkswagen Warranty Policies and Procedures Manual.

Certain customers who purchased a 2.0L TDI Gen 3 buyback vehicle need to return to a Volkswagen Dealer after the vehicle has accumulated at least 70,000 miles to have emissions recall 23Y8 phase 2B performed. When 23Y8 phase 2B is completed, the car must be returned to the customer with a complimentary full tank of fuel, oil and filter change, and tire rotation.

The following Warranty Key has been established to assist dealers in determining which vehicles are eligible:
