Preliminary Information

PIT5933 2022 HUMMER EV Drivers Or Passengers Front Door Panel Trim Cover Keeps Falling Off

Models

Brand:	Model:	Model Years:	VIN:		Engine:	Transmissions:
			from	to		
GMC	HUMMER EV	2022	All	All	All	All

Involved Region or Country	ALL
Condition	Some customer may state that their Driver or Passengers door panel screw trim cover is loose or keeps falling off.
Cause	This may be caused by the trim cover retaining tabs are not fully staying engaged into the door panel.

Correction:

To resolve this concern, remove the effected door panel trim cover and install a 15 mm X 15 mm square foam patch 5 mm (3/16) inch thick using EPDM foam with one side adhesive backing as shown in the photo below

Then perform the procedure on the other front door panel to prevent the vehicle from returning.

Warranty Information

For vehicles repaired under the warranty, use the following labor operation. Reference the Applicable Warranties section of Investigate Vehicle History (IVH) for coverage information.

Labor Operation	Description	Labor Time
2086518	R & R Door Panel Trim Bolt Cap And Add Foam To Both Front Doors	0.3 Hr.
