

WMP5 Workshop campaign – Check pressure sensors and replace if necessary

WMP5 Workshop campaign - Check pressure sensors and replace if necessary

ID Number	WMP5
Models	Taycan (Y1A/Y1B)
Model Years	2020-2022
VIN list	Attached below
Number of Affected VINs	3,774
Issue Description	<p>Due to a manufacturing error at the supplier, pressure sensors for the refrigerant circuit were installed on the affected vehicles that do not meet the required specifications.</p> <p>The failure of one or more pressure sensors in the refrigerant circuit can therefore not be ruled out over the lifetime of the vehicle. As a result, there is a possibility that the air conditioning and battery cooling system will not function as normal. This can lead to an increased temperature of the high-voltage battery and, as a result, to reduced charging performance during fast charging, and possibly reduced driving performance.</p>
What Dealers should do	<p>To prevent this from happening, the pressure sensors must be checked and replaced if necessary.</p> <p>As of the time of this posting, the repair is immediately available.</p> <p>Parts can be ordered via PPL Order with no PRMS Ticket needed.</p>
TI Number	No. 199-21

Parts required

Part No.	Designation	Quantity/vehicle *	Parts return **
V04015800AR	Pressure sensor	0 - 3 ea. (depending on scope) *	No
PAF106825	Hexagon-head bolt, M8 x 50	4 ea. (depending on scope) *	No
N 10261307	Hexagon nut	2 ea. (depending on scope) *	No

* The exact requirement must **be determined** by checking **the pressure sensors**.

*The parts must be stored until **such time as the related warranty or campaign claim** has been credited. If a **barcode is generated** with the credit note, the affected part must be sent to Porsche AG as usual. If no barcode is generated with the credit note, the part can go directly into the genuine remanufactured parts process or be scrapped.

Warranty processing

Validity:

This workshop campaign will be carried out up to December 9th, 2026 and will be closed on that date.

Please note that warranty claims can only be processed before this date.

Scopes 1 - 8:

Please note that each vehicle is assigned to all levels of service. The respective scope is determined **depending on the result of inspection**.

Damage Code	WMP5 66 000
Repair Code	1/2
Working time	124 - 268 TU

Please enter the campaign that was carried out in the Warranty and Maintenance booklet for the vehicle.

Customer Mobility

If requested, transport for the affected customer can be guaranteed by offering a suitable replacement vehicle. Please invoice this additional service via WWS with the extent of service provided.

Further Information

Work instruction	TI No. 199/21, Group 8, Service, WMP5
