- 3. When the vehicle basic feature box is displayed, select "Manual vehicle identification".
- 4. Select "Previous models for immobilizer-online" in the model selection. This is listed at the bottom of the list.
- 5. Click "Apply".
- 6. Select "No order" to start the vehicle system test.
- 7. After ODIS is done searching and running its initial command sequence, select the "Test Plan" tab.
- 8. Click the "Select self-test" button.
- 9. Select "Checking radio code or Immobilizer adaption", and then click the "Attach to the test plan" button.
- 10. Afterwards, click "Perform test" and follow the instructions in the test plan.

# i

Make sure you use the correct VIN when requesting a radio code. Using the same VIN over and over will trigger a security alert.

For the first offense, the corresponding GEKO ID will be locked and an unlock request will have to be submitted.

Further offenses may cause the GEKO ID to be permanently locked and re-issuance denied.

## Warranty

This TSB is informational only and not applicable to any Audi warranty.

## Additional Information

All part and service references provided in this TSB (2067783) are subject to change and/or removal. Always check with your Parts Department and/or ETKA for the latest information and parts bulletins. Please check the Repair Manual for fasteners, bolts, nuts, and screws that require replacement during the repair.
