## ODOMETER SCALING DISCREPANCY WHEN USING A GENERIC SCAN TOOL

**APPLIED VEHICLES:** 2020 Rogue (T32)

### SERVICE INFORMATION

Nissan has identified an issue with the vehicle odometer information that is provided by PID \$A6, when using a Generic Scan Tool (GST) on 2020 Rogue vehicles.

When using a GST on 2020 Rogue vehicles, the information provided in PID \$A6 is incorrectly scaled, resulting in the vehicle's odometer data indicating 10 times the actual odometer's value.

There is no issue with the odometer information displayed on the vehicle's instrument cluster or through CONSULT, only with a GST.

### AMENDMENT HISTORY

PUBLISHED DATE	REFERENCE	DESCRIPTION
June 1, 2022	NTB22-048	Original bulletin published

Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. **NOTE:** If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.
