

2021-2022MY Bronco
(ECG)
3.1.1

Ford Power-Up 3.1.1

This particular update will set you up for future ones to come. Think of it as the update that opens the door for the others to enter through.

Some updates will happen in the background while you are driving, if you keep Automatic Updates ON. But others require your vehicle to be turned off, which means you can't be behind the wheel. So, we recommend you set a recurring schedule so they can occur when you do not need to drive — like, while you're sleeping.

Simply go to your in-vehicle SYNC® settings screen and confirm you have Automatic Updates set to ON. Then select Schedule Updates to set your recurring schedule.

Again, these software enhancements are there to improve your vehicle's overall capabilities, including entertainment experiences and new vehicle features, so you know you're always driving the best version of your new Bronco™ SUV.

2021-2022MY Bronco
(SYNC)
3.2.1

Ford Power-Up 3.2.1

We've been busy. Check these out.

Advanced Dual Phone

Access two phones at the same time without having to mess with the settings. You could, for example, easily access both phones for incoming calls, contacts, text messages, emails and more.

Digital Owner's Manual

We made sure what you need to know is in there and easy to find. Go see it on Ford.com/support, in-vehicle or in the FordPass® App.

Screen Resizing

When you're using Android Auto™ or Apple CarPlay®, you can now make them appear on your touchscreen in the size you prefer.

Ongoing updates like this help you enjoy the best possible version of your Bronco™ SUV.

Android Auto is a trademark of Google LLC.

Apple CarPlay is a trademark of Apple Inc., registered in the U.S. and other countries.

2021-2022MY Bronco
(TCU)
3.3.1

Ford Power-Up 3.3.1

Minor updates here and there.

Just small stuff to keep everything running smoothly. Ongoing updates like this help you enjoy the best possible version of your Bronco™ SUV. Enjoy.
