

VOLKSWAGEN DEALER COMMUNICATION

Repair Available – UPDATE 24HV - Engine Control Module Software Update

This notice is for:

- ✓ Dealer Principal
- ✓ General Manager
- ✓ Sales Managers

- ✓ Service Manager
- ✓ Parts Manager
- ✓ Service Consultant

- ✓ Warranty Administrator
- ✓ Technicians

Date: August 29, 2022

Summary

This is to inform you that **Update 24HV will no longer be paused**, and the bulletin will be revised as follows:

- Work Instruction updates include:
 - Battery charging requirements are updated
 - A new SVM code. The updated software version should prevent the P0606 with symptom code 32902 from setting during the software flash process.
 - With the new SVM code, the workaround steps listed for P0606 fault have been removed.

Please see the revised bulletin for Update 24HV visible on August 30, 2022 in ELSA and ServiceNet for complete information.

-END OF MESSAGE-

Ensure all dealership personnel are aware of this notice so they are able to address customer questions. Contact Warranty if you require additional assistance. Direct press inquiries to Volkswagen Public Relations.
