*******Dealer Announcement*******

Nissan is conducting a Voluntary Service Campaign on certain 2021 Rogue vehicles identified in Service Comm and DBS National Service History. The vehicles covered in this campaign were produced before Nissan implemented an update to the front passenger restraint system which improved the New Car Assessment Program (NCAP) front passenger safety rating to four stars in the frontal crash test.

To increase customer confidence and satisfaction, Nissan will replace the front passenger airbag, front passenger seat belt retractor, and reprogram the airbag control unit (ACU) with the updated parts.

Affected vehicles are **not** subject to stop sale.

*******What Dealers Should Do*******

1. Verify if vehicles are affected by this Voluntary Emission Service Campaign using Service Comm or DBS National Service History – Open Campaigns I.D. **P2A08**.
2. Dealers are requested to remedy any affected vehicles in dealer pre-owned inventory to ensure customer satisfaction.
3. Dealers should use **NTB22-063** to correct any vehicles subject to this campaign.
4. Once repaired, dealers should submit the claim using the claims coding provided, and release the vehicle.

**** Dealer's Responsibility ****

It is the dealer's responsibility to check Service Comm or DBS National Service History - Open Campaigns using the appropriate Campaign I.D. for the campaign status on each vehicle falling within the range of this voluntary emission service campaign, which for any reason, enters the service department. This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in dealer inventory. If a VIN subject to this voluntary emissions service campaign was part of a dealer trade, the letter associated with that VIN should be forwarded to the appropriate dealer for service completion.
