

**WNA7 - Switching Off 3G Network (Workshop Campaign)**

Vehicle Type: **Panamera (971)**

Model Year: **As of 2017 up to 2018**

Concerns: **3G network turndown notice and impact to Panamera Porsche Connect services**

Information: **As wireless technology continues to evolve, telecommunications providers in North America, including AT&T, are transitioning from their legacy 3G wireless communication to more advanced technology. In order to free up resources to support this, AT&T will be decommissioning its 3G network on February 22nd, 2022.**

**A 3G telematics Car Connect module (Vodafone VTS) offering services such as Remote, Safety, and Security is no longer going to be functional after February 22nd, 2022.**

Remote services

- Remote trip statistics
- Remote vehicle status
- Car finder
- Remote door locking\*
- Geo fence
- Remote control of heating in vehicle\*\*

Safety services

- Airbag deployment notification
- Breakdown call with telematics data transmission

Security services

- Advanced theft detection (sabotage, unauthorized movement, jamming etc.)
- 24/7 service in the US
- Alert notification via SMS and push notification
- Remote access via mobile app to mode setting (e.g. transportation mode)
- Reporting theft via mobile APP

\*requires Porsche Entry & Drive option

\*\*PHEV only

**There is not a technology upgrade possible for the 3G telematics module.**

**Important Notice:** Technical Bulletins issued by Porsche Cars North America, Inc. are intended only for use by professional automotive technicians who have attended Porsche service training courses. They are written to inform those technicians of conditions that may occur on some Porsche vehicles, or to provide information that could assist in the proper servicing of a vehicle. Porsche special tools may be necessary in order to perform certain operations identified in these bulletins. Use of tools and procedures other than those Porsche recommends in these bulletins may be detrimental to the safe operation of your vehicle, and may endanger the people working on it. Properly trained Porsche technicians have the equipment, tools, safety instructions, and know-how to do the job properly and safely. Part numbers listed in these bulletins are for reference only. The work procedures updated electronically in the Porsche PIWIS diagnostic and testing device take precedence and, in the event of a discrepancy, the work procedures in the PIWIS Tester are the ones that must be followed.
