

Dust/Spots on the Headlight Lens: Observe Specified Procedure (147/22)

Model Line: **All model lines**

Model Year: **As of 2020**

Concerns: **Headlights**

Information: During the sales check (PDI) or after vehicle delivery to customers, complaints are received about dust/spots on the headlight lens.

Action required: Before replacing a headlight due to visual complaints, the condition of the headlight lens and the chrome components in the headlight must be checked according to the following criteria.

Conditions for evaluating the headlight lens and chrome components:

- Headlight is switched off
- Assessment takes place in daylight **without** a shop light
- Assessment distance 0.5 m/ 1.64 ft
- Assessment position 0° to 45° at front to headlight
- Assessment duration: 15 seconds

If no visual defects are perceptible under these evaluation criteria, **the headlight replacement is not justified.**

Information

The following illustration shows a headlight lens that has a potential dirt and contamination when the driving light is switched on which does **not** justify replacing the headlight.

*Example graphic that does **not** justify replacing it as headlights are switched on*

Example graphic, headlight switched off, no contamination visible, therefore no replacement justified

Important Notice: Technical Bulletins issued by Porsche Cars North America, Inc. are intended only for use by professional automotive technicians who have attended Porsche service training courses. They are written to inform those technicians of conditions that may occur on some Porsche vehicles, or to provide information that could assist in the proper servicing of a vehicle. Porsche special tools may be necessary in order to perform certain operations identified in these bulletins. Use of tools and procedures other than those Porsche recommends in these bulletins may be detrimental to the safe operation of your vehicle, and may endanger the people working on it. Properly trained Porsche technicians have the equipment, tools, safety instructions, and know-how to do the job properly and safely. Part numbers listed in these bulletins are for reference only. The work procedures updated electronically in the Porsche PIWIS diagnostic and testing device take precedence and, in the event of a discrepancy, the work procedures in the PIWIS Tester are the ones that must be followed.
