Technical Background

If the fuel tank is replaced, the part received will require a minor modification.

Production Solution

Not applicable.

Service

The replacement fuel tank has been superseded to part number 5Q0-201-060-ET; some minor modifications are required to allow refitting of the reductant agent filler neck.

Remove the material marked by the two red hash lines (Figure 1).

Figure 1: Remove the material indicated by the red X between the two red lines.
