Release Date: June 2022

Symptom/Vehicle Issue: RFH Security Flash Update Not Available On Manual Transmission Challengers

Discussion: The customer may bring their vehicle in to perform the voluntary RFH security flash update. This TSB flash update is designed to prevent hackers from programming their own key fob to the vehicle and deter vehicle theft.

While the TSB may appear to be applicable to all Chargers and Challengers with SRT engines. The version for MTX RFH modules equipped on manual transmission Challengers (LA) has not yet been released.

While there is not a definitive ETA currently. The supplier is making it a priority to validate and provide a flash for customer vehicles equipped with a manual transmission.

This document does not authorize warranty repairs. This communication documents a record of past experiences. STAR Online does not provide any conclusions about what is wrong with the vehicle. Rather, it captures all previous cases known that appear to be similar or related to the vehicle symptom / condition. You are the expert, and you are responsible for deciding on the appropriate course of action.
