**TOL NOTICE (USCA) – June 1, 2022**

**TOL Ref. #21627-SVC**

## TIGER 1200 OWNERS HANDBOOK FUEL GRADE ERROR

The Tiger 1200 US Owners Handbook lists the incorrect fuel grade. The correct 95 RON equivalent is 91 AKI, not 87. This correction will be included in future versions of the Owners Handbook.

The information below reflects the incorrect information currently included with the handbook.

Please relay this information to your customers when delivering their motorcycle.

### Fuel Grade

Triumph motorcycles are designed to use unleaded fuel and will give optimum performance if the correct grade of fuel is used. Always use unleaded fuel with a minimum octane rating of 95 RON.

Triumph motorcycles are designed to run on unleaded gasoline with a CLC or AKI octane rating (R+M)/2 of **87** or higher. Federal regulations require that pumps delivering unleaded gasoline are marked 'UNLEADED' and that the Cost of Living Council (CLC) or Anti-Knock Index (AKI) octane rating is also displayed. These ratings are an average of the Research Octane Number (RON) and the Motor Octane Number (MON).

If you have any additional questions, please contact Triumph Customer Support at (888) 284-6288.
