To: All General Motors Medium Duty Dealers

On April 5, 2022, General Motors released Product Emission Recall N222359341. We are adding 3,242 VINs to the involved vehicle population.

Global Warranty Management (GWM)

The Required Field Action section on the Investigate Vehicle History (IVH) screen will be updated September 27, 2022. A list of involved vehicles in dealer new inventory is attached to this message. Some VINs may have this recall completed, always verify the VIN in IVH before performing this repair. Please hold all warranty transactions until IVH has been updated.
